**NOTE: No July meeting!**

Next Homeowners Meeting:  
Thursday, Aug. 14th  
at 7:30 PM  
in our clubhouse

Please attend!!

### POOL NEWS

**Mondays - Closed for Cleaning,**

**Tuesdays through Sundays - 10am-10pm**

Please remember that pool monitors are to monitor our family pool and are not babysitters. We have many teenagers spending many hours at the pool this summer but if they break the rules, after 3 warnings they will be banned from the pool for the remainder of the swim season. Under 18 years old should not be smoking at the clubhouse and no foul language allowed!

### WATER RATIONING

Remember: We are still on STAGE 2 of water rationing which calls for "Outside watering by hand held hose any-time Monday thru Friday ONLY ONCE A WEEK between 3am to 8am and 8pm to 11pm on your watering day."

**CHILL OUT THIS SUMMER!**

A little time and money can go a long way toward helping you trim your energy bill this summer, according to Consumer Reports.

The magazine's July issue offers some inexpensive ways to use less air conditioning while cooling your home effectively.

- **FAN ON:** Fans don't use much electricity, and they can make you feel up to 7 degrees cooler.
- **MADE IN THE SHADE:** Close draperies and blinds, especially on windows that face west. Trees and bushes on the west side of your house can also help.
- **CHANGE LIGHT BULBS:** Incandescent bulbs generate heat and use more electricity than compact florescent bulbs. Replacing a 60 watt incandescent bulb with a 15 watt CFL can save you up to \$41 over the life of the bulb.
- **SELECTIVE AIR CONDITIONING:** Installing your air conditioning unit in a shady spot could increase its efficiency up to 10%, according to the U.S. Department of Energy. Programmable thermostats can cut your electric bill another 10%.
